PROFESSIONAL SUMMARY

Flutter Developer with 1+ years of hands-on experience designing and shipping production-grade mobile applications. Delivered 10+ Flutter projects spanning AI integration, Firebase, and RESTful APIs, including 1 app published on the Google Play Store and 2 more currently in deployment across the App Store and Play Store. Skilled at building clean, performant UIs and translating client requirements into scalable mobile solutions, and currently contributing to multiple live client projects at Softvence Agency.

CORE SKILLS

Technical Skills

- Flutter & Dart
- RevenueCat
- REST API Integration (Dio, HTTP)
- Firebase (Auth, Firestore, FCM)
- CRUD Operations
- SQLite & Local Storage
- UI/UX Design (Figma)
- Google Maps API Integration
- App Lifecycle Management
- App Testing & Debugging
- GitHub & Version Control
- CI/CD Pipeline
- State Management (GetX, BLoC, Provider, Riverpod)
- Database & Storage Management
- n8n (AI Automation)

Soft Skills

- Leadership
- Team Management
- Time Management
- Problem Solving
- Critical Thinking

EDUCATION

BSc in Computer Science and Engineering | Daffodil International University, 2022 - 2025

Higher Secondary Certificate (HSC) | Kushtia Govt. Central College, 2019 - 2020

Secondary School Certificate (SSC) | Kushtia Zilla School, 2017 - 2018

CERTIFICATIONS

- Flutter Development — ICT Ministry & Bangladesh Computer Council
- Flutter App Development — Ostad (Pro)
- UI/UX Design Fundamentals — Ostad

WORK EXPERIENCE

Jr. Flutter Developer — Softvence Agency, Dhaka | Feb 2026 - Present

- Currently managing deployment of 2 applications to the Apple App Store and Google Play Store; successfully published 1 application on the Google Play Store.
- Developed and shipped 10+ mobile applications using Flutter and Dart, contributing to multiple live client projects.
- Integrated RESTful APIs and Firebase services (Auth, Firestore, FCM) to enable real-time data exchange and functionality.
- Collaborated with designers and backend developers to implement user-friendly, high-performance interfaces.

PROJECTS

Industry & Client Projects

Voyage AI — AI-Powered Travel Companion

Tech Stack: Flutter, RxDart, Firebase Auth, GetX, GetStorage, Dio, Google Maps API, PayPal, Syncfusion PDF Viewer, SSE Chat

- Built a trip-based AI companion app with real-time SSE chat, multi-channel Firebase Auth, interactive map routing, and a secure PayPal payment pipeline.

Ojais Food Scanner — AI-Based Food Scanner

Tech Stack: Flutter, Firebase Auth, RxDart, GetX, GetStorage, Dio, RevenueCat

- Developing an AI-powered food scanning application with real-time API integration for intelligent food recognition and analysis.

STEMRN — AI-Powered Nursing Education App

Tech Stack: Flutter, Firebase Auth, Stripe, RxDart, GetX, GetStorage, Dio

- Building an AI-integrated educational platform for nursing professionals with Stripe subscriptions and live API-driven content delivery.

Jaysea AI — Identity-Driven AI Chatbot

Tech Stack: Flutter, Dio, RxDart, GetX

- Delivered a fully functional AI agent app where the chatbot adapts behavior, tone, and responses based on user-defined identity and boundaries.

Kind Pack — SaaS Enterprise Management System *(In Development)*

Tech Stack: Flutter, Firebase Auth, Dio, RxDart

- Developing a multi-role enterprise platform with e-commerce workflows, role-based access control, and AI-driven calculation features.

Proppin — Real Estate Management System *(Available in Playstore)*

Tech Stack: Flutter, Firebase Auth, Dio, RxDart, Provider

- Developing a smart, all-in-one platform to seamlessly manage properties, tenants, and real estate operations.

Personal Projects

MessMate Pro — Mess Management App *(In Development)*

Tech Stack: Flutter, Firebase, Firestore, Riverpod

- Built a communal living expense tracker with role-based auth, real-time Firestore sync, dynamic meal-rate calculations, and offline support.

E-Commerce Marketplace — Scalable Digital Marketplace

Tech Stack: Flutter, Firebase, Provider, Stripe, FCM

- Developing a full-scale marketplace with Stripe checkout, real-time cart/order tracking, FCM notifications, and an admin inventory panel.

Football Live Score App

Tech Stack: Flutter, Firebase Realtime Database

- Developed live match tracking with real-time Firebase data sync and dynamic UI updates for instantaneous score changes.

Real-Time Map Tracker

Tech Stack: Flutter, Google Maps API, GPS

- Integrated Google Maps API with live GPS tracking, real-time coordinate markers, and movement path rendering.

Money Management App

Tech Stack: Flutter, SQLite, Charts

- Built an offline expense tracker with SQLite persistence and interactive charts for visual budgeting and transaction history.

Task Manager App

Tech Stack: Flutter, Firebase, Auth

- Developed a task lifecycle manager with Firebase Authentication and real-time cross-device cloud sync.

CRUD App via REST API

Tech Stack: Flutter, REST API, HTTP

- Implemented full CRUD operations with a REST backend, including data validation and error handling for secure API communication.
